The Inspired
HOLIDAY

President's Desk

Hello Boyz and Girlz,

It was great to see so many members at the last meeting. It's always a stressful meeting as we had to discuss the budget and all. We made it through!

Can you believe that it is almost March? Hope everyone had a great Valentine's Day! Now I can ruin the fun and mention that it's almost TAX day! It's fun for some and miserable for others.

Kenn is looking for cars to place in the newsletter. If you would like to showcase your car, please contact Kenn @ Phunkc2002 @gmail.com. We would love to hear your story.

If you paid your dues to be a part of the club, then please come to the meetings and be a part of the club! We would love to see you participate and meet any new members or even the old members you have not seen in a while or have not met yet!

Don't forget to wear as many colors as possible for the next meeting. You will get a red ticket for each color you wear.

Short and sweet this month! Until next month, enjoy!

*Laura Miller,
Madame President
707-853-3367*

Pro comp playback with shift lights Water Temp Oil Pressure Volt gauge Oil Temp

Gauges are all mechanical except for the tach and oil temp gauge (sender not available), it is staying in my transmission. Prices listed above are for new gauges (the water temp is new). Each gauge has its own chrome mounting cup that it sits in. Cups cost \$35 new, and I will include them with the gauges. Tach when new is \$500 and gauges are about \$90 each. Make me an offer I can't refuse.

Stock 1956 Chevy Bel Air gauge panel, works and is in excellent shape, for manual trans.
\$200

Boyz Car of the Month

Let's See What You Got!!!

Send me a photo of your car or truck and a little something about it! Make it short and sweet!!!

Tom Morrow's 1956 Chevrolet Bel Air Sport Coupe

Most of you know the car, but for those that do not, She's a 1956 Chevrolet Bel Air Sport Coupe. I built this car in a small garage back in 2004. She was mint green in color; rear suspension was installed wrong and would be binding if it was drivable. Engine was a long block 350 (newly rebuilt) and a T350 transmission. All the chrome trim was with the car, just needed bumpers. Glass was good except for the driver's window which was cracked. I was drag racing at the time and was getting tired of the expense so that was when I decided to buy this one and sell the racecar less engine, transmission and some of the electronics. Anyway, I put the race motor (454ci) and race trans (T400, manual shift, reverse valve body with a transmission brake) in the 56. Ordered interior from Klassic Interiors on the east coast. Stripped the old paint off the body (9 freaking colors), did some minor body work and then off to the body shop in Vallejo. Put in a 9in Ford rear with 3.55 posi gears, Keystone Klassic wheels, a big ass radiator and all new gauges. Had the car on a dyno a few years back and the dyno guy didn't take her to her limit on the RPMs. He shut her down at 5000, guess he got scared. Just under 400hp at rear wheels. She's fast, loose and loud. Puts a big smile on my face. Thanks for reading. There's a lot more but got to keep it short and sweet.
