

Vehicle Lifts For Sale

I am leaving California and cannot take my two car lifts. One is an 8,000 pound four-post 120-volt lift made by Direct Lift. The other is a 10,000 pound two-post 240-volt lift made by Forward Lift. I am asking \$3,000 for each or you can buy both for \$5,000. Both lifts are sold as is and the buyer must handle complete disassembly and transport. They will be available for removal between 10/20/2025 and 10/24/2025. If they don't sell, they stay in the shop and will go to waste or someone else will get to use them. POC: Bob Wilkie (rwilk5@aol.com).
