1956 Chevy 3200 Truck

In Benicia. “Big Red” is his name. Sound Body. 350 Chevy engine. Turbo 350 transmission. Engine runs, but not yet road worthy. Partial install of American Auto wire harness for tail, head, and brake lights. Come with these EXTRA parts: New chrome grill, Ididit steering column, new dash gauges, and various other new miscellaneous parts. I hate to see Big Red go. I was loving the idea of cruising around town in him, but now I’m too old for another truck project. I’m asking $4,000 OBO. Call or text James @ 831-801-9866.
